

Technology System Requirements

The Workforce Partnership has technology system requirements with which a contract must comply. At a minimum, contractors must have the following:

- Internet connectivity (High Speed Internet recommended),
- Individual E-mail accounts for staff working on the proposed project, and
- Workstation capable of running Microsoft Internet Explorer 8.0 web browser with at least a DSL connection.

Additional Technology System recommendations are listed below:

OPERATING SYSTEM	STATUS
MS Windows Vista Business or Windows 7 Business	Recommended
INTERNET CAPABILITES	
Internet Explorer 8.0 or 9.0	Required
ANTI-VIRUS CLIENT	
Symantec Anti-Virus	Recommended
SOFTWARE APPLICATIONS	
MS Office Professional Version 2003 or higher	Recommended
Adobe Acrobat Reader Version X or higher	Recommended
COMPUTER HARDWARE	
Recommended specification	Recommended brands:
Processor: Intel Core 2 Duo 2.8 GHz	Compaq
Memory: 4 GB	
Hard Drive: 160 GB or larger	Dell
USB 2.0 or higher	
CD ROM/DVD: 48X or higher	

Provisions for the appropriate hardware and software should be included in the equipment budget for this RFP.
