I. INTRODUCTION AND SCOPE OF WORK

A. OUR PHILOSOPHY INTRODUCTION

The San Diego Workforce Partnership believes in empowering job seekers to meet the current and future workforce needs of employers in San Diego County. All of our work and partnerships are grounded in the framework of helping an individual find the intersection between what they love to do, what they can be paid for, what employers need, and the education, training and support they need along their career pathway. The aspiration for our funding for Opportunity Youth is centered on helping youth align their interests and skills with education, training, and jobs. We hope to see you infuse these tenets into the foundation of your program design, while still meeting the required program elements and services. Review **ATTACHMENT – TECHNOLOGY AND SYSTEM REQUIREMENTS** to learn more about the different platforms used by the Workforce Partnership.

B. PURPOSE OF RFP/BACKGROUND

The Workforce Partnership is soliciting proposals to identify subrecipients to deliver Workforce Innovation and Opportunity Act (WIOA) Title I Youth services to specific, identified, youth populations within San Diego County. This Request for Proposal (RFP) was designed in partnership with youth from the community to identify subrecipients capable of offering services in an integrated environment where education, career skills training, community resources, employment assistance and wrap-around support are available for young adults. Subrecipients will be responsible for delivering specific outcomes, located in **ATTACHMENT – PERFORMANCE AND IMPACT MEASURES**.

This RFP was prepared based upon the WIOA and associated U.S. Department of Labor (DOL) and California Employment Development Department (EDD) regulations and guidance. Throughout the

RFP there are specific terms and language used that Respondents may not be familiar with. Please refer to **ATTACHMENT - GLOSSARY OF TERMS** to find definitions of commonly used phrases. WIOA is landmark legislation that is designed to strengthen and improve our nation's public workforce system and help get Americans, including youth and those with significant barriers to employment, into high-quality jobs and careers and help employers hire and retain skilled workers. <https://www.dol.gov/agencies/eta/wioa/>

The WIOA system is built around the following key principles:

- Increase access and opportunity, particularly for those individuals with barriers to employment, to ensure success in the labor market.
- Support the alignment of workforce investment, education, and economic development systems in support of a comprehensive, accessible, and high-quality workforce development system.
- Improve the quality and labor market relevance of workforce investment, education, and economic development efforts to provide workers with the skills and credentials necessary to secure and advance in employment with family-sustaining wages; and to provide employers with the skilled workers they need to succeed in a global economy.
- Promote improvement in the structure and delivery of services to better address the employment and skill needs of workers, job seekers, and employers.
- Increase the prosperity of workers and employers and the economic growth of communities, regions, and states, and the global competitiveness of the United States.
- For purposes of Title I, to provide workforce investment activities through statewide and local workforce development systems that increase the employment, retention, and earnings of participants and increase attainment of recognized postsecondary credentials by participants; and as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet the skill requirements of employers, and enhance productivity and competitiveness.

C. SCOPE OF WORK

The Workforce Partnership seeks to procure a subrecipient to provide workforce services to each the following populations*, for a total of four (4) subrecipients.

- Black Opportunity Youth
- Homeless Youth
- Justice Involved Youth
- Immigrant, Refugee, & English Language Learner (ELL) Youth (will work in partnership with the selected Subrecipient providing Youth One-Stop Career Center services)
 - **The subrecipient selected for this contract must demonstrate ability to serve all three eligible populations, regardless if their RFP response focused on a specific population or community. They must be willing to accept referrals of youth meeting these barriers, as well as co/dual enrolling, especially when language or immigration services are needed.**
 - **Youth will only need to meet one of the three barriers to be considered eligible.**

**Detailed population definitions can be found below under "WIOA Eligibility"*

D. CONTRACT PERIOD

The Workforce Partnership intends to award four contracts (one per population) with a base year that will begin on July 1, 2021 and end on June 30, 2022, with the option to extend the agreement for three additional one-year periods based on organizational need, service provider performance, and funding availability.

The Workforce Partnership anticipates awarding approximately \$2.4 million in WIOA Youth funding through this RFP for the base year. This amount is an estimate based on past WIOA allocations and is subject to change as the Workforce Partnership receives funding allocations from the DOL and the EDD in the spring of 2021. Contracts will be structured as cost reimbursement. Cost per youth should not exceed \$5,300. Applicants are encouraged to build a model that leverages outside funding for youth.

Anticipated contracts will range from \$400,000 - \$700,000 depending on total funds available, services provided, and number served. **Applicant proposals should not exceed \$600,000.** Final funding amounts will be negotiated once an applicant is selected. If an applicant would like to serve more than one population, they must submit a proposal for each population individually.

E. ORGANIZATIONAL OVERVIEW & GOVERNANCE

The Workforce Partnership is a 501(c)(3) tax-exempt organization chartered by the County and the City of San Diego to empower job seekers to meet the current and future workforce needs of employers in San Diego County. The organization's primary funding is allocated by the U.S. Department of Labor under the provisions of WIOA and is overseen under the leadership of the Workforce Development Board (WDB) and the Policy Board. Together with community partners, the Workforce Partnership funds and delivers programs whose goal is to prepare young adults for high school graduation, post-secondary education and ultimately, a career. Additionally, the Workforce Partnership provides targeted employment services designed to help eligible job seekers identify a career path and obtain the skills and experience they need for success. For additional information on the Workforce Partnership, its mission and strategic pillars, visit workforce.org.

F. ELIGIBLE APPLICANTS

For-profit and nonprofit organizations, public agencies, consortiums, and/or a collaboration of these organizations are all encouraged to apply. Consortiums, joint ventures, or collaborations of organizations with complementary skills and experience are encouraged to apply. The Workforce Partnership values the strength and strategic benefit of multiple partners coming together to provide comprehensive community services grounded in linguistic/cultural skills, trust and relationships within populations and geographies, and experience delivering evidence-based programming. Receiving and/or managing WIOA funds previously, is not a requirement. If a collaborative proposal is submitted, the applicants need to clearly identify one legal entity as the prime Respondent that will hold contracting responsibilities and liabilities.

II. SOLUTIONS PROFILE, BUDGET, REQUIRED STAFF POSITIONS, AND JOB QUALITY

A. SOLUTIONS PROFILE

1. Needs Statement

The US Department of Labor estimates that nearly 6 million 16-24 year-olds are both not in school and not working—which equates to one in seven youth. These “disconnected youth” are twice as likely to live in poverty, three times as likely to not have a high school diploma or its equivalent, and three times as likely to have a disability. Disconnected girls and young women are more than three times as likely to have a child than their connected counterparts.

In San Diego, approximately 38,000 young adults aged 16 to 24 are both not in school and not working—about one in 11. These disconnected youth are disengaged from education, training, and the world of work. Youth unemployment leads to skill atrophy and increased involvement with the juvenile justice system.

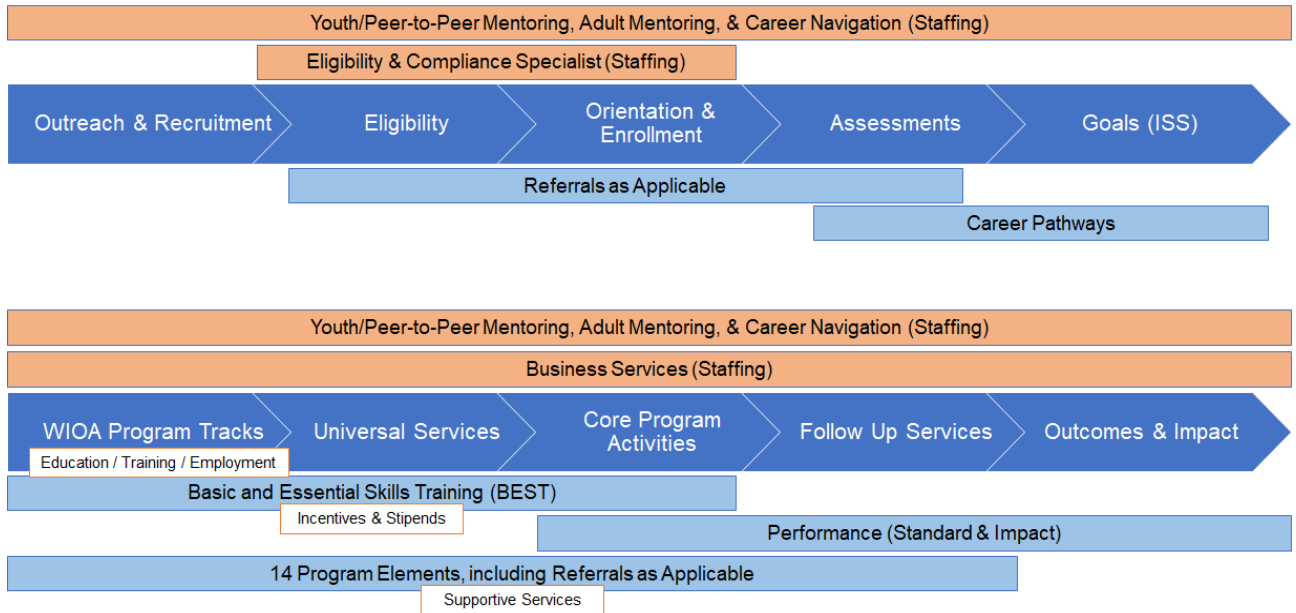

While there are many populations in San Diego County that have unique education, training and job seeking needs, we looked at disconnection rates and barriers to education and employment to narrow our focus on four specific populations. The four populations and their disconnection rates are:

- Black youth – 18%
- Homeless/Housing insecure – 65%
- Immigrant/Refugee and ELL – 12-24%
- Justice involved – 25-55%

Youth disconnection is often characterized as a crime issue, an education issue, a public health issue, or a social service issue. And, as record numbers of employees begin to retire, the large number of youth and young adults that lack work experience and skills will increasingly become a bottom-line issue for San Diego's business community. Because of the interconnectedness of our workforce, education and social service systems, Youth disconnection has become a community issue that we must address.

2. Program Design and Requirements

Subrecipients must ensure they will provide the following program design components. When creating a Program Design, Subrecipients should address the elements outlined below and more information refer to the Workforce Partnership [Operations Manual](#).

3. Program Design Elements

Respondents must ensure they will provide the following program design components.

i. Outreach and Recruitment

Outreach and recruitment includes, but is not limited to, identifying potentially eligible youth, working with parents/guardians to secure eligibility documentation (when applicable), and working closely with other government systems, community organizations, and school systems to identify and recruit youth. Subrecipients must develop a plan to identify specific communities to conduct outreach and recruitment. Communities must be identified using [zip codes](#) and referencing community names.

ii. WIOA Eligibility

The Workforce Innovation and Opportunity Act sets guidelines for which youth are eligible to participate in WIOA youth programming. Subrecipients will be responsible for determining WIOA eligibility of all youth applicants and collecting and verifying all necessary eligibility source documents. Youth will be determined eligible based on the requirements outlined in the Workforce Partnership Operations Manual – Chapter 7, Part 2 ([Operations Manual](#)). e. **English Language Learners, Immigrants, & Refugees (OSY Only)

Participants in this population specific group must dual-enroll with the Youth One-Stop Career Center Subrecipient to provide a dual-navigation of services in partnership with the population specific contract. Respondent must take reasonable steps to ensure limited English proficiency (LEP) individuals receive the language assistance necessary to give meaningful access to programs, services, and information. Both Subrecipients will coordinate services to provide additional support, including but not limited to:

- Multilingual Language Assistance
- Vocational Language Activities
- Cultural Training and Awareness

In order to ensure that reasonable steps are taken to allow meaningful access for LEP individuals, the Workforce Partnership recommends that Subrecipients develop a written LEP plan. When developing an LEP plan, Subrecipients should specifically address the elements outlined in the San Diego Workforce Partnership [Operations Manual Chapter 9: Nondiscrimination & Equal Opportunity and Complaint Procedures](#).

iii. Access and Locations

The Subrecipient must provide access points throughout San Diego county and must have, at minimum, a main office/location, and satellite locations or other strategies to provide access points for communities identified in the outreach and recruitment plan. Access and

locations should specifically address transportation, technology, and scheduling barriers. The locations should be easily accessible to members of the community, including parents or guardians of the participants. Respondents should also address how they will adapt their services to provide remote and virtual access that is responsive to COVID-19 limitations and social distance mandates.

iv. Orientation and Assessments

As part of orientation, all youth must receive information on all available services. The Workforce Partnership will standardize WIOA orientation and program assessments based on a universal intake design to facilitate a highly effective enrollment and partner referral process. Subrecipients will participate and enhance these strategies by conducting an Objective Assessment (OA) of academic level, skill level, and service needs of each participant to analyze and develop appropriate service strategies to meet individual needs. Orientation and assessment resources will be provided through the Workforce Partnership platforms. Standardized assessments cover:

- Program assessment and suitability
- Development and basic needs
- Education
- Work Experience
- Basic skills
- Employability
- Interests and aptitudes

v. Individual Service Strategy (ISS) Goals

Subrecipients must use the results of the OA to develop the ISS for the youth participant. The ISS is an age appropriate, individualized written plan of short- and long-term goals that includes, career pathways, education and employment goals, involvement in program elements, supportive services, incentives, and stipends. The ISS will identify, and track activities related to each of the goals and will clearly connect the services to be provided to each youth. The ISS directly links to one or more indicators of performance outcomes.

vi. Referrals

Youth who do not enroll in WIOA programs should be provided information regarding other applicable and appropriate services available through other local community programs. In some cases, youth may be given referrals that facilitate further assessment or securing of basic needs to prepare them for eventual program participation. Subrecipients will be required to track all referrals through the CalJOBS Referral Module if the referral entity is utilizing the module. For additional information regarding referrals, co-enrollments, and dual enrollments, refer to “Partnerships and Collaboration,” below.

vii. Career Navigation

Career Navigation, also known as case management, is the infrastructure for delivering effective services that will facilitate the growth and development of youth and the achievement of performance goals. The process extends from recruitment through follow up. The Career Navigator motivates participants and coordinates services and information

to prepare youth for postsecondary education opportunities, academic and occupational training, or employment and training opportunities, as appropriate. Subrecipients are encouraged to incorporate trauma informed and human-centered design approaches in their staffing models. It is the main responsibility of the Career Navigator to guide the youth towards self-sufficiency.

viii. Career Pathways

WIOA places a strong emphasis on career pathways, defined as a combination of rigorous and high-quality education, training, and other services that include: career counseling, training for a specific occupation, and supporting advancement in that specific occupation or occupational cluster. Subrecipients will be required to provide information to youth regarding career pathways and related industries to accelerate the advancement towards self-sufficiency.

ix. Participant Engagement and Retention

Youth are expected to have weekly engagement in services/activities, either active in one-day or long-term activities. At minimum, Subrecipients are required to facilitate monthly services/activities (every 30 days). Subrecipients are strongly encouraged to develop comprehensive engagement strategies to ensure program retention. A cohort model to deliver services is strongly encouraged to allow for peer-to-peer support and engagement, as well as promoting collaboration between WIOA partners to leverage resources and provide network-wide trainings/activities to participants. Partners must demonstrate their ability to manage caseloads through a combination of their staffing plan and the solutions proposal.

x. Core Program Activities

The primary focus of WIOA youth programs is education, training, and employment. As such, Subrecipients will be required to provide a minimum of one type of core service to each participant. Subrecipients must demonstrate the ability to provide all three core components:

Educational Services. Services must include instructional approaches that offer a continuum of skill, grade level, and developmentally appropriate educational options that connect to career pathways, including:

- Tutoring
- Study skills training
- Evidence-based dropout prevention and recovery strategies that lead to completion of a secondary school diploma or its recognized equivalent
- Post-secondary preparation, enrollment, and credential/degree attainment
- Alternative secondary school services
- Job shadowing and career exploration in field of study
- Other activities that prepare an individual to be successful in any secondary or post-secondary educational options.

Training Services. Services must include instructional approaches that offer occupational skills and education concurrently with training options that connect to career pathways, including:

- Classroom based occupational skills training
- Job shadowing and career exploration
- Eligible Provider Training List (ETPL)
- Youth Services Education Provider List (YSEPL)
- Apprenticeship training

Employment Services. Services must include approaches that offer work-based learning opportunities that connect to career pathways, including:

- Work experience
- Job shadowing and career exploration
- Internships
- Pre-Apprenticeships
- On-the-Job training

xi. 14 Youth Program Elements

WIOA designates 14 youth program elements (**ATTACHMENT – 14 YOUTH PROGRAM ELEMENTS**) that must be made available to all enrolled youth. If a Subrecipient does not directly provide one of the program elements, it must demonstrate the ability to make seamless referrals to appropriate providers of such services. The funded provider will have primary responsibility for ensuring that each participant receives the full continuum of services. The Workforce Partnership has implemented each of the elements into aspects of the universal program design, including:

- WIOA Program Tracks
- Basic and Essential Skills Training (BEST)
**see below for more information*

xii. WIOA Program Tracks

The Workforce Partnership has developed WIOA Program Tracks (**ATTACHMENT – WIOA PROGRAM TRACKS**) that each eligible youth must enroll into as part of their program participation. All tracks include required core program services and outcomes. Subrecipients may not alter core program services or outcomes; however, youth may switch tracks at any time based on updates to their ISS. Tracks are as follows:

- Track A: Education Only
- Track B: Employment & Experience
- Track C: Employment & Training
- Track D: Employment & Education

xiii. Universal Services

Universal Services are identified as additional WIOA program elements that will supplement core program service through continued skill development. The services are required to be provided to all youth including, but not limited to:

- Financial Literacy
- Mental Health
- Comprehensive Guidance & Counseling
- Leadership Skills & Youth Development
- Mentoring

Required elements are included in the BEST draft outline and staffing requirements.

xiv. Basic and Essential Skills Training (BEST)

Additional skills have been identified as instrumental in overall program success, engagement, and impact to youth leading to self-sufficiency. The Workforce Partnership developed a draft outline for BEST training and all Subrecipients will enhance and implement. The draft outline of BEST (**ATTACHMENT – BASIC AND ESSENTIAL SKILLS TRAINING**) includes the overall concept as part of the universal program design and includes elements from both core track services and universal services, work-readiness training, labor market information (LMI), entrepreneurial skills training, and additional WIOA program elements included in **ATTACHMENT – 14 YOUTH PROGRAM ELEMENTS**.

SDWP will provide more details on what is required under BEST closer to the start of the contract. BEST will be a network-wide partnership between SDWP and all subrecipients where the material is widely available and accessible to all enrolled youth. Subrecipients will work with SDWP to develop different workshops, trainings, and topics based on what is submitted in response to the RFP under the Solutions Proposal.

xv. Incentives and Stipends

Once subrecipients are selected, the Workforce Partnership will develop a universal incentive and stipend policy related to the overall program design tied to participation and completion of BEST training, track-specific trainings, education, or work-based learning activities. Subrecipients may submit requests to include additional incentives or stipends based on their specific strategies. Subrecipients will need to include incentives and stipends in the participant costs section of their budget. **ATTACHMENT – INCENTIVE AND STIPEND POLICY**

xvi. Supportive Services

Subrecipients must budget for and provide Supportive Services to enable successful participation in WIOA activities. Subrecipients must also provide in-kind match to extend and promote the use of Supportive Services by leveraging and promoting resources, self-sufficiency, and accessibility. Supportive Services include, but are not limited to:

- Transportation
- Childcare and dependent care
- Housing and utilities
- Educational testing
- Tools and uniforms
- Work attire and interview clothes
- Books, fees, and school supplies for post-secondary education

- Legal aid services
- Employment and training related application fees, testing, and certifications

xvii. Follow Up Services

Subrecipients are required to provide at least 12 months of follow-up services to participants who have completed program services, as well as participants who may have dropped out of the program but need additional services. Upon completion of their education, training or employment goals, participants will enter a “follow up” period of participation. Follow-up services should be a continuation of programmatic services with consistent engagement to provide additional support, resources, community service/volunteering, and other youth development activities encouraging responsibility, social, and civic behaviors. Subrecipients will assist youth with securing and retaining employment, continuing training, or attainment of a secondary or post-secondary credential/diploma, degree, or certificate. Follow up services must support successful performance outcomes.

xviii. Performance

Performance outcomes will be broken into two tiers, defined in **ATTACHMENT – PERFORMANCE AND IMPACT MEASURES**:

- Standard WIOA Performance
- Enhanced Performance Outcomes
- Impact Metrics on Population Specific Strategies

Subrecipients who do not meet Standard WIOA Performance measures may be subject to de-allocation or de-obligation of funds based on their quarterly performance reporting.

Enhanced Performance Outcomes are measures that extend beyond standard performance measures to provide substantial impact in leading youth towards self-sufficiency. Subrecipients will have an opportunity to earn incentives (increased funding allocation in subsequent contract years) based on meeting enhanced performance outcomes, funding dependent.

Both standard and enhanced performance measures are subject to change based on federal, state, and local laws, policies, and the Workforce Partnership and subrecipient negotiated contract changes.

Once Subrecipients are selected, a SDWP Senior Economist and Data Analyst will partner with your organization to review your program design, population(s) served and decide on definitions of impact metrics.

xix. Partnerships and Collaboration

Subrecipients are expected to demonstrate external partnerships with youth serving systems such as, local secondary schools and alternative education, school districts, higher education institutions including community colleges, law enforcement, juvenile and adult justice systems, local housing programs, community-based organizations, the County of

San Diego's Health and Human Service Agency, mental health and counseling centers, employers, and other organizations that serve youth. Subrecipients are encouraged to refer youth to these programs as appropriate.

Subrecipients must also demonstrate how they will partner and collaborate with current American Job Centers of California (AJCC) Career Center Operator and the new Subrecipient that will be responsible for the Youth One-Stop Career Center Services contract, as well as other WIOA Youth Subrecipients. This will include providing county-wide workshops, trainings, and services as a “network-wide” service strategy to leverage resources and develop cohort-based learning, as well as dual-enroll youth in multiple WIOA programs as part of a comprehensive case management system. The Workforce Partnership staff will facilitate regular meetings of providers to support collaboration and partnership.

WIOA Subrecipients will be required to sign a Memorandum of Understanding (MOU) with the AJCC Career Center Operator. The purpose of the MOU is to establish a cooperative working relationship between the parties and to define their respective roles and responsibilities. In addition to signing the MOU, the Subrecipient will be required to make referrals using the CalJOBS Referral Module which focuses on quality referrals that are likely to convert to services. This ensures the following:

- Referrals are recorded and a system is in place for partners to follow-through and report progress on referrals made.
- We are using an integrated and expert intake process for all customers entering the AJCCs. Frontline staff are highly familiar with the functions and basic eligibility requirements of each program and can appropriately assist customers and make knowledgeable referrals to partner programs, as needed and as appropriate given the authorized scope of the program.

xx. Partnership with San Diego Workforce Partnership

The Workforce Partnership will actively support all Subrecipients in providing standardized trainings, resources, and/or curriculum on the following required eligibility and programmatic elements:

- WIOA Eligibility - Trainings
- Universal Assessments & Referral Systems - Trainings
- Labor Market Information, Career Coach, and RIASEC - Trainings & Resources
- Basic & Essential Skills Training (BEST) – Curriculum, Trainings, & Resources
- Business Partnerships & Job Quality – Resources
- Additional resources and trainings as requested

xxi. 2-Gen Approach

The 2-generation approach is centered on establishing a new mindset that focuses on family-centered program design, continues with the alignment of services across multiple organizations, and culminates in providing coordinated services to children and parents. This includes supporting parents and families of WIOA eligible youth and youth who are pregnant, parenting, or providing eldercare. The Subrecipient must promote family friendly

organization practices internally and propose plans to incorporate the 2-Gen Approach with the services provided to the youth they will serve through this contract.

The Budget file categories include but are not limited to; personnel, non-personnel, sub-contracts, indirect, profit that covers the entire twelve (12) month contract period for the first year of the contract. Personnel costs must identify the staff position, annual salary, and percentage of annual time spent on the funding sources for every staff position by program year. Non-personnel costs should also be further outlined into specific line items (e.g. rent, supplies, equipment, repairs, and mileage). A budget (Excel file) must be included in submission. Pricing must be inclusive of cost of supply and provision of services during the service period and include any applicable taxes. The prices quoted should be valid for a period of 4 years. (cost of living and additional costs will be negotiated each contract year).

xxii. Job Quality

Respondents should specifically address how the job quality framework will be used in conjunction with the fourteen required WIOA elements for youth programs and what, if any, metrics beyond the required WIOA performance metrics will be tracked and analyzed to determine a) which programmatic interventions are most successful in connecting youth with quality jobs b) which employer strategies are most effective in creating pathways to quality jobs c) what additional supports are necessary to enable youth to pursue pathways to quality jobs.

B. PROJECT BUDGET AND REQUIRED STAFFING POSITIONS

The Respondent must submit **ATTACHMENT – BUDGET, ATTACHMENT – BUDGET NARRATIVE, STAFFING PROPOSAL, A COST ALLOCATION PLAN AND AN INDIRECT RATE AGREEMENT** if applicable.

The Budget file categories include but are not limited to; personnel, non-personnel, sub-contracts, indirect, and profit that covers the entire twelve (12) month contract period for the first year of the contract. Personnel costs must identify the staff position, annual salary, and percentage of annual time spent on the funding sources for every staff position by program year. Non-personnel costs should also be further outlined into specific line items (e.g. rent, supplies, equipment, repairs, and mileage). A budget (Excel file) must be included in submission. Pricing must be inclusive of cost of supply and provision of services during the service period and include any applicable taxes. The prices quoted should be valid for a period of 4 years. (cost of living and additional costs will be negotiated each contract year).

The Budget Narrative file items should correspond to each line-item in the Project Budget Detail tab of the Budget file. This narrative should justify the need for all costs built into the line-item and the methodology used to derive each cost.

For guidance on completing the budget and the budget narrative, please see **ATTACHMENT – BUDGET AND BUDGET NARRATIVE INSTRUCTIONS**. The template files are provided for a Windows Environment computer (MAC systems should not be used). You should be using a recent version of MS Excel and MS Word that are configured with MS “recommended” security settings, without custom options. Please do not modify the template files in any way (except adding rows in the Budget Narrative file).

1. Work Experiences

A minimum of 25% of the funds allocated must be spent on paid and unpaid work experiences. Including summer and yearlong employment opportunities, pre-apprenticeship programs, internships, and job shadowing. Allowable expenditures beyond participant wages can include staff time spent identifying potential work experience opportunities, staff time working with employers to develop the work experience, staff time spent working with employers to ensure a successful work experience, staff time spent evaluating the work experience, participant work experience orientation sessions, classroom training or the required academic education component directly related to the work experience, and orientation for employers.

2. Cost Allocation Plan

The cost allocation plan describes the methodology that will be used to prorate common operating costs to each funding source. Examples of common operating costs are infrastructure costs (e.g. rent and copier machines), as well as personnel (e.g. receptionist, fiscal staff, senior management) providing benefits to multiple funding sources. Furthermore, the estimated amounts derived from the proposed methodology should be allocated to each budget line item. All costs should be identified as program or program support costs (see Section 4d - Program Support vs. Program Costs).

3. Indirect Costs and Negotiated Profit

Any indirect costs budgeted must be supported by an indirect cost rate agreement with a federal or state cognizant agency. If a Respondent does not have an approved indirect rate but wishes to include indirect costs in its proposal, it must submit all relevant financial information that outlines how the indirect rate and costs were determined and future steps for required approval by the relevant cognizant agency. If the Respondent is not required to obtain an indirect rate, then the cost allocation plan must include the methodology describing how common operating costs are distributed to the different funding sources. All costs should be identified as program support or program costs as defined in Section 4d - Program Support vs. Program Costs.

For-profit organizations' negotiated profit line item shall not be negotiated at a rate higher than 10% of the total project. The following factors are considered in negotiating profit:

- The Respondent's effort measured by the complexity of the work to be performed and amount of subcontracting (if approved under the contract terms);
- Contract cost risk.
- The Respondent's investment and independent development.
- The quality of the Contractor's record of past performance including cost control and past accomplishments.
- Additional factors as needed.

The extent to which a Respondent can meet performance objectives while minimizing indirect and profit costs will be a factor in the evaluation process.

4. Program Support vs. Program Costs

WIOA identifies two cost categories: administrative and program costs. For the purpose of the RFP, the Workforce Partnership defines administrative costs as program support costs. Respondents may not exceed the cap of 20% on program support costs. Program support costs

typically include salary and wages for staff who work in Finance, Human Resources, Payroll, Legal, Property Management, etc. as well as other associated costs related to these functions. For more information on program support and program costs, refer to 2 CFR parts 200 and 2900. All Respondents should follow this rule when classifying budget costs as program support or program costs. The Workforce Partnership encourages Respondents to use in-kind or revenue streams other than WIOA funding to pay for program support costs. The extent to which a Respondent can meet performance objectives while minimizing support costs will be a factor in the evaluation process. **A minimum of 10% of the Total Budget amount must be spent in the Participant Cost category.**

Disallowed cost includes:

- Food and beverages
- Bad debt
- Advertising (other than help-wanted ads and procurement requests)
- Contributions/Donations to other non-profits
- Entertainment
- Fines and penalties
- Lobbying and fundraising costs
- Equipment purchases >\$100 without prior approval from Workforce Partnership

5. In-Kind and Cash Match Resources

In order to efficiently use WIOA funds and deliver program services to residents and businesses within San Diego County, it is important to leverage a wide range of public and private resources to support program services. For more information on cost sharing or matching, refer to 2 CFR part 200 and 2900.

Respondents are required to provide a 25% in-kind or cash match for the SUPPORT SERVICES line item and a 10% in-kind or cash match of the total contract amount on the budget.

In-kind and cash match resources can support any budget item as long as it supports program activities. Cash match is defined as a contribution of funds made available to the Respondents to be used specifically for program activities. Respondents are required to assign a monetary value to any in-kind contributions. Examples of in-kind resources include but are not limited to:

- Staff time from lead and/or partner agencies (directly related to jobseeker or business customers).
- Facilities/Infrastructure (where services are provided).
- Participant expenses (e.g. internship/work experience wages, incentives, supportive services, tuition, books, fees, tools, or clothing for employment)
- Equipment (directly related to services to jobseeker or business customers).
- Outreach and/or media support.

These in-kind or cash-match resources must directly support the proposed program activities and should be documented with a Letter of Commitment, MOU, or other documentation. The documentation of in-kind or cash-match resources will include agreed-upon details of the

support, that includes the amount to be lent or the services or supplies to be provided, the terms and goals of the agreement, and each parties roles and responsibilities in the agreement.

6. Subcontractors

If applicable, the Respondent must describe its plan to subcontract any portion of the services in Section C3 – Solutions Profile. The Respondent must follow their own procurement procedures to procure subcontractors if those procedures reflect state and local laws and conform to the standards in 2 CFR §§200.318–326. If a proposal identifies a specific subcontractor as collaborating in the design or provision of services, the Workforce Partnership’s award of the grant does not provide the justification or basis to sole source the procurement of those services, thereby avoiding full and open competition for the provision of the planned services. Procurement of subcontractors may be done before or after submitting a proposal. See **ATTACHMENT – CONTRACT GENERAL PROVISIONS** for additional information. The Respondent’s subcontracts funded with WIOA must be reviewed and approved by the Workforce Partnership prior to executing.

7. Required Staff Positions

The Workforce Partnership requires that the following positions and corresponding functions be fulfilled. Respondents are encouraged to propose creative staffing structures that may include full-time dedicated staff, shared positions, multiple part-time staff or other designs that have proven to be successful in serving youth in the past. For the purposes of this section, please explain how each position and its responsibilities will be met. For budgeting purposes, please use the titles provided below. All staff must be trained to recognize trauma and mental health needs, incorporate trauma informed approaches in case management, and make appropriate emergent referrals when necessary.

Career Navigator – The Career Navigator will provide case management for youth participants to facilitate the growth and development, participation in core program activities, and support achievement of performance outcomes. The Career Navigator will work in partnership with the Peer and Adult mentors and the Business Service Representative to provide a supportive and comprehensive case management strategy. The Peer Mentor should be one of the first interactions during outreach, recruitment, eligibility and registration. Peer Mentors should also be involved in conducting assessments and working in partnership with the Career Navigator, Adult Mentor, and Business Service Representative to coordinate and follow up on status of Youth goals. Peer Mentors can be paid staff or community volunteers. It is highly recommended that Peer Mentors be current (follow-up) or past participants and/or community members with similar lived experiences.

Eligibility, Compliance, and CalJOBS Specialist – The specialist should be the main staff assigned to conduct and verify eligibility in Workforce eFile, conduct internal monitoring and ensure compliance with the Workforce Partnership Operations Manual, understand CalJOBS system requirements, run CalJOBS reports and verify CalJOBS performance data. This person would also be the first point of contact for coordinating trainings with the Workforce Partnership, data change requests, and additional programmatic requirements in partnership with the Career Navigator and the Program Manager.

All staff must be trained to recognize trauma and mental health needs, incorporate trauma informed approaches in case management, and make appropriate emergent referrals when necessary.

8. Incentives and Stipends

Respondents must budget for both Stipends and Incentives within the Participant Cost section of their budget. Stipends and Incentives must factor in costs related to participation and achievements related to **ATTACHMENT – BASIC AND ESSENTIAL SKILLS TRAINING DRAFT** and **ATTACHMENT – INCENTIVE AND STIPEND POLICY DRAFT**.
